ABOUT CONCLAVE

NEP-2020 has been receiving importance from all strata of Indian society, since this is the first Indian educational policy in the 21st century. The Indian education system is one of the largest and growing education system in the world with more than 1.5 lakh schools, more than 8.5 lakh teachers, more than 250 lakh students from 29 different states and 7 Union Territories coming from different social and economic conditions. As per the guidelines of NEP- 2020 , MOE has designed an application like UDISE + with the help of National Informatics Centre which provides accurate and timely data for policy making & decision making to MOE.

Further, NEP-2020 will create a strong, sustainable, reliable and objective assessment system for students from Primary to Higher Education. This will produce efficient and skilfully employable students and contribute to the increase in National Income.

After 35 years of National Policy on Education 1986 (in which modifications were done in 1992) the present policy on education has come which suggested tremendous changes in the entire education system of India . Changes suggested by NEP-2020 through the guidelines so far published shows its nature and importance.

NEP-2020 aims to create socio-economic and educational equality in the society (Education for all, Free Education). Further it aims to give world class facility & education to students from Nursery to Higher Education. To fulfil this world's topmost 100 Universities & Institutions are permitted to open their campuses in Indian Subcontinent. To increase the literacy rate of all states is also the key objective of this policy . For accomplishment of this object Indian Government has adopted holistic approach towards, skill education, vocational education, professional education, health education, valueeducation etc. from primary to higher education. Further this policy has given importance to Drop out students, teacher training, Academic Credit Banks and stress on Interdisciplinary / Multidisciplinary curricula. Though this policy aims to make India a super power, its implementation has many Legal challenges. This National Conclave will discuss the issues in "The implementation of NEP-2020 at Higher Education Level".
