## **BEST PRACTICE - I**

### **1. Title of the Practice:** *Book Review*

### **2. Goal:**

The main goal of the practice is to make the students read more.

#### **Objectives:**

- To introduce the students with the books in Marathi, Hindi and English
- To encourage the students to read the books from different fields
- To motivate them to use the form of book review

### **3. The Context:**

Due to the increasing development in the field of media, the students are going away from books. Instead, they are seeking information either from electronic media or from e-sources. It is true that the habit of book reading has been decreasing day by day. Though the college is located in the urban area, most of the students are from rural background. So it is necessary for them to read more and understand how to review books. This skill can be the source of income for them as most of the newspapers, magazines and even some electronics media have separate space for book reviews.

### **4. The Practice:**

The students participated in the activity are asked to choose the book of their choice from Marathi, Hindi or English language. If they need, the teachers from the concerned subjects help them to choose the book which has literary as well as ethical values. They are even provided the periodicals which publish the book reviews so that they can prepare themselves before they take on writing a book review.

#### **The Best Book Review Prize:**

The Best Book Review prizes are given to the first three best reviewers in order to encourage the habit of book reviewing among the students.

### **5. Evidence of Success:**

- As the students are encouraged to read and review the books, the skill of review writing is developed in the students.

- Due to the competition, the students participate in the activity seriously so that they can show their talent in the activity.
- The students visit the college library frequently and ask for variety of books of their choice.

#### **6. Problem Encountered and Resources Required:**

- The number of participant students is more initially, but when they submit their reviews their number decreases.
- Sometimes majority of the students ask for the same popular book but the library can not provide all of them the same book.

### **BEST PRACTICE - II**

**1. Title of the practice:** Entrepreneurship Awareness Programme

**2. Objectives:**

- To motivate the students for self-employment.
- To motivate the students to initiate their own enterprise.

**3. The Contest:**

Today there is a problem of unemployment problem is among the educated youths. Educated youths generally prefer to find employment with the other employers. Entrepreneurship is such an area which induces an individual to generate idea to start new enterprise, deploy available local resources and produce goods and services in the available local market. This enables to increase per capita income and adds to total national income. Entrepreneurship generates employment which helps to solve the problem of unemployment.

**4. The Practice:**

- The college organises lectures of successful local entrepreneurs to share their experiences.
- The college organises entrepreneurship awareness programmes for students in collaboration with Maharashtra Centre for Entrepreneurship Department. (MCED).

**5. Evidence of success:**

As the main object of Entrepreneurship Awareness programme is to bring the awareness among the students regarding self employment, some students have started their small business enterprises.

**6. Problem Encountered:**

- Initially large number of students enrol their names for the programme. 50% of the enrolled students respond and attend the activities undertaken. Finally very new students start their own enterprise.
